SUMMARY

- Engineering student applying Python, JavaScript, and Java to architect and develop full-stack web applications and developer tooling. Builds interactive, responsive frontends with React and implements backend services using Node.js and REST APIs. Focuses on optimizing developer experience, reducing configuration overhead, and delivering efficient, user-centric solutions while maintaining a strong academic record.

TECHNICAL SKILLS

- ▷ **Languages:** C, Java, JavaScript, Python (Basic)
- ▷ **Frontend:** HTML5, CSS3, Tailwind CSS, React.js, Shadcn UI
- ▷ **Backend:** Node.js, Bun, Express.js, REST API Development
- ▷ **Database:** MySQL, MongoDB
- ▷ **Tools:** Git, GitHub, Linux, Postman, Vite, ChatGPT, Claude

PROJECTS

Ionospheric TEC Forecasting using Deep Learning (Ongoing) [GitHub](#) Mar 2026 – Present

- Contributed to a mentored group project by preprocessing multi-satellite GNSS (IRNSS/NavIC, IISC Bangalore) data into minute-level TEC time-series (41 days).
- Implemented LSTM and Transformer seq2seq models for day-ahead prediction of 1440-step TEC profiles under mentor guidance.
- Applied z-score normalization with leakage-safe train/validation split (29/11 days) and evaluated using RMSE and MAE.

Prettier Studio — Interactive Config Generator [Live](#) | [GitHub](#) Apr 2026

- Developed a web tool for generating Prettier configs with real-time preview and multi-format export (JSON/YAML/JS).
- Integrated `js-yaml` and Prettier plugins to automate formatting and optimize Tailwind class ordering.
- Built responsive UI using React, Tailwind CSS, and Vite for fast rendering and smooth interactions.

QR Craft — Custom QR Code Generator [Live](#) | [GitHub](#) Apr 2026

- Built a customizable QR generator with real-time rendering and parameter control (size, color, error correction).
- Integrated `qrcode` library and implemented instant preview with multi-format download support.
- Designed responsive frontend using React, Tailwind CSS, and Vite for performance and cross-device compatibility.

EXPERIENCE

Web Development Intern — ShadowFox Apr 2026

Virtual Internship

- Selected for a 1-month virtual internship focused on web development, working on real-world project-based tasks.
- Gained hands-on experience in frontend and backend development through structured weekly project milestones.

ACHIEVEMENTS & CERTIFICATIONS

NPTEL – Programming in Java (IIT Kharagpur) [View](#) Jul – Oct 2025

- Ranked in Top 1% (99%) among 26,183 learners; 12-week course covering OOP, exception handling, and Java application development.

Full Stack Development with MEAN Stack — Ardent Computech [View](#) Jul 2025

- 36-hour training covering MongoDB, Express.js, Angular, and Node.js for full-stack application development.

NPTEL – Introduction to Database Systems (IIT Madras) [View](#) Jan – Apr 2025

- Ranked in Top 1% (90%) among 2,768 participants; 12-week course covering relational models, SQL, normalization, and transaction management.

Finalist – CIRCUITHON 2024 (IEEE IEM CAS Student Branch) [View](#) Dec 2024

- Selected as finalist among 150 participants in a circuit design competition.

EDUCATION

Narula Institute of Technology, Kolkata Aug 2023 – Present

B.Tech in Electronics & Communication Engineering

CGPA: 9.5

Kalyan Nagar Vidyapith, Kolkata 2022

10+2 (W.B.C.H.S.E)

80%

Kalyan Nagar Vidyapith, Kolkata 2020

10 (W.B.B.S.E)
